

Mayfair Internal Medicine, P.C.

If there is a life threatening emergency, always call 911. *Otherwise, please call our office first.* We know you best and often have same day appointments or can advise you on where to go. This is a sample guide meant to help you and your family determine where to seek medical care and when. It is not all inclusive, and will vary by the medical care setting and our community.

Reason for Care	Mayfair Internal Medicine	Convenience Care (Take Care, Little Clinic)	Urgent Care (outside our office hours)	Emergency Room
